

# CONTENTS

**Foreword**..... iii

## SECTIONS

<b>1. Introduction</b> .....	<b>1</b>
1.1 Origin .....	1
1.2 Background .....	1
1.3 Purpose .....	1
1.4 Scope .....	1
1.5 Sources .....	1
1.6 Use of Other PEI Recommended Practices .....	1
1.7 Importance of Competent Personnel.....	2
1.8 Written Plans and Specifications .....	2
1.9 Regulations.....	2
<b>2. Definitions</b> .....	<b>3</b>
2.1 Air-to-Liquid (A/L) Volume Ratio Test .....	3
2.2 Bond .....	3
2.3 Breakaway.....	3
2.4 California Air Resources Board (CARB) .....	3
2.5 Coaxial Drop Tube .....	3
2.6 Coaxial Hose .....	3
2.7 Combustible Gas Detector .....	3
2.8 Cubic Feet per Minute (CMF), Cubic Feet per Hour (CFH).....	3
2.9 Digital Manometer .....	3
2.10 Dispenser.....	3
2.11 Dispenser Sump.....	3
2.12 Drive-Off.....	3
2.13 Drop Tube.....	3
2.14 Dynamic Backpressure Test.....	3
2.15 Enhanced Vapor Recovery (EVR) .....	4
2.16 Extractor Fitting .....	4
2.17 Face Seal .....	4
2.18 Fuel Outlet Fitting.....	4
2.19 Fuel/Vapor Splitter .....	4
2.20 Ground.....	4
2.21 Hanging Hardware .....	4
2.22 Hose.....	4
2.23 Hose Retractor.....	4
2.24 Inches Water Column (Inches WC) .....	4
2.25 Incline Manometer .....	4
2.26 Liquid Collection Point.....	4
2.27 Listed.....	4
2.28 Manifold .....	4
2.29 Manometer.....	5
2.30 National Pipe Thread (NPT) .....	5
2.31 Nozzle.....	5
2.32 Nozzle, Bellowless.....	5
2.33 Nozzle Bellows .....	5
2.34 Nozzle Boot.....	5
2.35 Nozzle Spout .....	5
2.36 Personal Protective Equipment (PPE).....	5
2.37 Poppeted Coaxial Drop Tube .....	5

2.38	Pressure Decay Test .....	5
2.39	Pressure Regulator.....	5
2.40	Pressure/Vacuum (P/V) Vent Valve.....	6
2.41	Reference Gauge .....	6
2.42	Riser .....	6
2.43	Spill Containment Manhole .....	6
2.44	Stage I Vapor Recovery.....	6
2.45	Stage II Vapor Recovery .....	6
2.46	Stage II Vapor Recovery Nozzle.....	6
2.47	Swivel.....	6
2.48	Tank-Top Sump .....	7
2.49	Top Off .....	7
2.50	Transition Sump .....	7
2.51	Ullage .....	7
2.52	Vapor Emission Guard .....	7
2.53	Vapor/Fuel Splitter .....	7
2.54	Vapor Recovery Adapter .....	7
2.55	Vapor Recovery System .....	7
2.56	Vapor Shear Valve.....	7
2.57	Vapor Valve .....	7
2.58	Vent Cap .....	7
2.59	Volatile Organic Compound (VOC).....	7
2.60	Whip Hose.....	7
<b>3.</b>	<b>Stage I Vapor Recovery Systems .....</b>	<b>8</b>
3.1	Stage I Vapor Recovery.....	8
3.2	Vapor Recovery Adapters.....	8
3.3	Types of Stage I Vapor Recovery Systems .....	8
3.3.1	Two-Point (Dual-Point) Stage I Vapor Recovery Systems.....	8
3.3.2	Coaxial Stage I Vapor Recovery Systems .....	9
3.3.3	Manifolded Stage I Vapor Recovery Systems .....	10
3.4	Aboveground Tanks .....	10
<b>4.</b>	<b>Stage II Vapor Recovery Systems .....</b>	<b>11</b>
4.1	Stage II Vapor Recovery .....	11
4.2	Balance Systems.....	11
4.3	Vacuum Assist Systems.....	11
4.4	Aboveground Tanks .....	11
<b>5.</b>	<b>Stage II Vapor Recovery System Components .....</b>	<b>14</b>
5.1	General .....	14
5.2	Nozzles .....	14
5.3	Hoses .....	14
5.4	Swivels .....	14
5.5	Breakaways .....	14
5.6	Hose Retractors .....	14
5.7	Vapor Valves.....	14
5.8	Dispensers .....	15
5.9	Vacuum Assist Devices .....	15
5.10	Ball Valves.....	15
5.11	Vapor Shear Valves .....	15
5.12	Pressure/Vacuum (P/V) Vent Valves .....	16
5.13	Vapor Return Piping.....	16
5.14	Liquid Collection Point.....	17
<b>6.</b>	<b>Aboveground Vapor Recovery Piping Connected To Aboveground Tanks .....</b>	<b>19</b>

<b>7.</b>	<b>Underground Piping and Fittings .....</b>	<b>20</b>
7.1	General Requirements for Underground Vapor Recovery Piping .....	20
7.2	Underground Piping Materials.....	20
7.3	Underground Piping Practices.....	20
7.4	Underground Piping Layout and Trenches .....	20
7.5	Underground Piping Backfill and Compaction.....	21
7.6	Flexible Connectors.....	21
7.7	Underground Fiberglass Piping.....	21
7.8	Underground Flexible Piping.....	21
7.9	Containment Sumps .....	22
7.10	Riser Piping.....	22
7.11	Testing of Underground Primary Vapor Piping .....	22
7.11.1	Initial Piping Test.....	22
7.11.2	Initial System Test.....	22
7.11.3	Dynamic Backpressure Test.....	23
7.11.4	Monitoring During Construction .....	23
7.11.5	Post-Construction Testing.....	23
7.12	Testing of Underground Secondary Vapor Piping .....	23
7.12.1	Initial Test for Underground Secondary Piping.....	23
7.12.2	Monitoring During Construction .....	23
7.12.3	Final Integrity Test for Secondary Piping.....	23
7.12.4	Clean Up .....	23
<b>8.</b>	<b>Pressure Decay Test.....</b>	<b>24</b>
8.1	General .....	24
8.2	Test Equipment.....	24
8.2.1	Nitrogen Cylinder and Regulator.....	24
8.2.2	Provision for Bonding and Grounding .....	24
8.2.3	Pressure Relief Valve .....	24
8.2.4	Pressure Measuring Equipment .....	24
8.2.4.1	Digital Manometer .....	24
8.2.4.2	Mechanical Pressure Gauge .....	25
8.2.4.3	Manometer.....	25
8.2.5	Vent Plug.....	25
8.2.6	Flow Meter.....	25
8.2.7	Stopwatch.....	25
8.2.8	Shutoff Valve.....	25
8.2.9	Isolation Valve.....	25
8.2.10	Test Assembly .....	26
8.2.11	P/V Vent Valve Test Assembly.....	26
8.2.12	Leak Locating Methods and Devices .....	26
8.3	Prepare for Test .....	26
8.3.1	Safety.....	26
8.3.2	Delay After Deliveries .....	26
8.3.3	Delay After Air-to-Liquid (A/L) Testing .....	26
8.3.4	Delay After Dispensing.....	26
8.3.5	Place Dispensing Equipment in Normal Operating Position .....	26
8.3.6	Remove Fill Adapter Caps and Vapor Adapter Dust Caps.....	26
8.3.7	Check Product Level.....	26
8.3.8	Check Drains in Spill Containment Manholes .....	26
8.3.9	Check Ullage Volume .....	27
8.3.10	Drain Liquid Collection Points .....	27
8.3.11	Connect Test Assembly .....	27
8.3.12	Bond and Ground Test Equipment.....	27
8.3.13	Calculate Pressurization Time.....	27
8.3.14	Turn Off Vapor Processors.....	28

8.4	Test Procedure .....	28
8.4.1	Initiate Safety Procedures .....	28
8.4.2	Warm Up Digital Manometer .....	28
8.4.3	Pre-Test Stage I Vapor Recovery Adapter .....	28
8.4.4	Close Valve Between Vacuum Pump and Storage Tank.....	28
8.4.5	Stop Dispensing and Monitor Pressure.....	28
8.4.6	Pressurize Ullage Space of Storage System .....	29
8.4.7	Monitor Time Required to Pressurize Storage System.....	29
8.4.8	Pressurize Ullage to 2.2 Inches WC .....	29
8.4.9	Conduct Test.....	29
8.4.10	If Storage System Fails Test .....	29
8.4.11	If Vapor Return Lines Are Not Manifolder.....	29
8.4.12	If Vapor Piping Is Isolated From Tank(s) .....	29
8.4.13	Test P/V Vent Valve .....	30
8.4.14	Report Results.....	30
8.4.15	Clean Up .....	30
8.5	Test Aboveground Tanks.....	30
<b>9.</b>	<b>Dynamic Backpressure Test .....</b>	<b>31</b>
9.1	General .....	31
9.2	Dynamic Backpressure Test Methods.....	31
9.3	Dynamic Backpressure Test Equipment .....	31
9.3.1	Nitrogen Cylinder and Regulator.....	31
9.3.2	Provision for Bonding and Grounding .....	31
9.3.3	Pressure Relief Valve .....	31
9.3.4	Pressure Measuring Equipment .....	31
	9.3.4.1 Digital Manometer .....	32
	9.3.4.2 Mechanical Pressure Gauge .....	32
9.3.5	Flow Meter.....	32
9.3.6	Shutoff Valve.....	32
9.3.7	Simulated Fill Pipe.....	32
9.3.8	Gasket.....	32
9.3.9	“T” Assembly.....	32
9.3.10	Pump .....	32
9.3.11	Portable Gasoline Tank .....	32
9.3.12	Stopwatch.....	32
9.3.13	Vapor Adapter Opener.....	32
9.4	Prepare for Test .....	33
9.4.1	Initiate Safety Procedures .....	33
9.4.2	Verify Integrity of Storage System .....	33
9.4.3	Flow Liquid Through Vapor Piping.....	33
9.4.4	Drain Liquid Collection Point.....	33
9.4.5	Bond and Ground Test Equipment.....	33
9.4.6	Check Test Equipment for Leaks.....	33
9.4.7	Check Method 1 Test Equipment for Backpressure .....	33
9.4.8	Check Method 4 Test Equipment for Backpressure .....	33
9.4.9	Connect “T” Assembly .....	34
9.5	Test Procedure .....	34
9.5.1	Initiate Safety Procedures .....	34
9.5.2	Vent Storage System .....	34
9.5.3	Insert Nozzle in Simulated Fill Pipe.....	34
9.5.4	Close Nitrogen Flow Control Valve.....	34
9.5.5	Close Inlet Valve of Low-Pressure Mechanical Gauge .....	34
9.5.6	Set Nitrogen Delivery Pressure.....	34
9.5.7	Adjust Nitrogen Flow Rate .....	34
9.5.8	Record Backpressure.....	34
9.5.9	Compare Measured Backpressure to Acceptable Backpressure Level.....	34

9.5.10	If Backpressure Exceeds Acceptable Level.....	34
9.5.11	Record Results .....	35
9.5.12	Increase Nitrogen Flow Rates.....	35
9.5.13	Repeat Test for All Other Nozzles/Dispensers .....	35
9.5.14	Clean Up .....	35
9.6	Aboveground Tanks .....	35
<b>10.</b>	<b>Air-to-Liquid (A/L) Volume Ratio Test.....</b>	<b>36</b>
10.1	General .....	36
10.2	Test Equipment.....	36
10.2.1	Air Volume Meter .....	36
10.2.2	Nozzle Vapor Adapter .....	36
10.2.3	Portable Gasoline Tank .....	37
10.2.4	Air Volume Meter Air Intake .....	37
10.2.5	Liquid Volume Meter .....	38
10.2.6	Stopwatch.....	38
10.2.7	Lubricant .....	38
10.3	Prepare for Test .....	38
10.3.1	Initiate Safety Procedures .....	38
10.3.2	Determine Whether to Test With Pressure/Vacuum (P/V) Vent Valve Installed .....	38
10.3.3	Determine Whether to Test With Vapor Processor On or Off .....	38
10.3.4	Determine Volume to be Dispensed During A/L Test .....	38
10.3.5	Determine Fuel Dispensing Rate Requirements.....	39
10.3.6	Check Air Meter Calibration.....	39
10.3.7	Verify Condition of Nozzle Spouts.....	39
10.3.8	Check Nozzle Vapor Adapter Compatibility .....	39
10.3.9	Check Condition of Nozzle Vapor Adapter Seals.....	39
10.4	Test Procedures .....	39
10.4.1	Initiate Safety Procedures .....	39
10.4.2	Ground Portable Test Tank .....	39
10.4.3	Check Test Equipment Tubing for Gasoline.....	39
10.4.4	Install Nozzle Vapor Adapter .....	39
10.4.5	Record Initial Air Volume Meter Reading.....	39
10.4.6	Reset Dispenser Meter Display.....	39
10.4.7	Reset Stopwatch.....	39
10.4.8	Insert Nozzle in Test Tank and Start Test .....	39
10.4.9	Dispense Fuel and Time Test .....	39
10.4.10	Calculate Fuel Dispensing Rate and Verify It Is Acceptable.....	40
10.4.11	Calculate A/L Ratio.....	40
10.4.12	If Nozzle Fails by Narrow Margin.....	40
10.4.13	Record Data.....	40
10.4.14	Testing Unihose Dispensers .....	41
10.5	Troubleshooting.....	41
10.5.1	Test Nozzle Vapor Adapter Seal .....	41
10.5.1.1	Nozzle Vapor Adapter Test Equipment .....	41
10.5.1.2	Nozzle Vapor Adapter Test Procedure.....	41
10.6	Post-Test Procedures .....	41
10.6.1	Replace P/V Vent Valve .....	42
10.6.2	Empty Portable Tank.....	42
10.6.3	Carefully Seal Inlet and Outlet of Air Volume Meter.....	42
10.7	Aboveground Storage Tanks .....	42
<b>11.</b>	<b>Electrical Installation .....</b>	<b>43</b>
11.1	General Requirements .....	43
11.2	Classifications .....	43
11.3	Electrical Equipment.....	44

**12. Testing and Inspection..... 46**

12.1 General ..... 46

12.2 Test Results ..... 46

12.3 Other Testing ..... 46

**13. Documentation and Training..... 47**

13.1 As-Built Drawings..... 47

13.2 Component Documentation..... 47

13.3 Scheduled Maintenance..... 47

13.4 Training ..... 47

**14. Decommissioning Stage II Vapor Recovery Piping..... 48**

14.1 Introduction ..... 48

14.2 Nature of Procedure ..... 48

14.3 Qualifications ..... 48

14.4 Paperwork..... 48

14.5 Applicability..... 48

14.6 Decommissioning Procedure..... 49

14.6.1 Initiate Safety Procedures ..... 49

14.6.2 Relieve Pressure in Tank Ullage ..... 49

14.6.3 Drain Liquid Collection Points ..... 49

14.6.4 Vacuum Assist Systems With Vapor Pumps for Each Fueling Position..... 49

14.6.5 Vacuum Assist Systems With Centrally Located Vapor Pump..... 50

14.6.6 Isolate Below-Grade Vapor Piping at Base of Dispenser..... 50

14.6.7 Disconnect Vapor Piping at Tank Top ..... 50

14.6.8 Seal Dispenser Cabinet Vapor Piping ..... 50

14.6.9 Replace Hanging Hardware ..... 50

14.6.10 Replace P/V Vent Valve(s)..... 50

14.6.11 Remove Stage II Operating Instructions from Dispensers ..... 50

14.6.12 Conduct Pressure Decay Test, P/V Vent Valve Test and Tie-Tank Test ..... 51

14.6.13 Conduct Final Visual Check ..... 51

14.6.14 Complete Checklist in Appendix C ..... 51

**APPENDICES**

**Appendix A: Pressure Decay Test Tables..... 52**

**Appendix B: Sample Forms for Test Data Recording. .... 54**

**Appendix C: Stage II Decommissioning Checklist..... 57**

**Appendix D: Publication Reference ..... 58**
